Colours are as close to the actual paint colours as modern processes allow. Availability of colours was current as at April 2003, however some colours may only be available on a firm order basis. Mazda New Zealand reserves the right to make changes at any time without notice. Please consult your local Mazda dealer for current availability.

Help is as close as the nearest telephone. Personal Assistance, 24 hours a day, 365 days a year. 0800 800 626.

To make sure your new Mazda E-Series keeps performing at its best, regular servicing is a must. Regardless of whether you do a lot of kilometres or very few, you still need to service your van regularly. Each and every Mazda E-Series van is covered by a 3 year 100,000 kilometre warranty and Mazda's On-Call, round-the-clock roadside assistance. Please consult your Mazda Dealer for the latest information on models, specifications, options, features and prices as they may vary from the details described in this brochure since it was printed - March 2003.

In 1996 Mazda became the first Japanese automotive manufacturer to be authorised for the ISO 9001 certificate. Those numbers represent the highest attainable rank within the internationally approved quality assurance system created to improve customer satisfaction.

E-Series Van

E-Series Long & Short Wheelbase

1.8 Short wheel-base

The E-Series vans from Mazda continue the company's tradition for design and engineering innovation. Constant development and improvement guarantee vehicles that will tackle the work asked of them.

Available in your choice of Short and Long wheel-base, with load space and power to ensure there is a van suitable for all requirements.

The Short wheel-base E1800 model is powered by a 1.8L fuel injected petrol engine generating 67kW and 138Nm of torque. It has a 5-speed manual floor change transmission, and to make the work easier, new seating, full central locking, power steering and left-hand side door entry are standard features for this compact, sturdy van.

The Long wheel-base gives you the option of petrol or diesel.

The E2000 model powered by a 2.0L fuel injected petrol engine or, alternatively, the E2500 with a 2.5L diesel engine providing 174Nm of torque giving you power and economy all the way.

Long wheel-base models feature a 3 metre-long cargo deck and a 1.0 – 1.5 tonne cargo capacity. Up front, power steering, new moulded door trim and headliner plus car-like dash

layout provide a uniquely comfortable driving experience. With your safety in mind Mazda has incorporated improved visibility through a new low-cut window design, and wider repositioned door mirrors for rear visibility. All models feature an energy absorbing frame for increased protection in frontal collisions. This is built into the front bumper overhang and combined with side door impact beam and driver's air

1.8 Short wheel-base and 2.0 Long wheel-base

Short wheel-base

2.5D Long wheel-base

2.0 Long wheel-base

Special Features

Car-like interior design make all E-Series vans efficient and comfortable for working and driving. A range of active and passive safety features (including driver's airbag) protect occupants in the event of collision.

Useful and roomy cabin storage areas including custom-designed A4 folder and business card compartments make the E-Series "a better place to work".

New low-cut side windows provide optimum all round visibility, with a new electric exterior passenger mirror on Short wheel-base and 2.0 Long wheel-base models.

There is also a new thicker urethane steering wheel for improved control and comfort.

bag provides occupants with a high level of safety.

The new Mazda E-Series vans can handle any load due to their generous cargo areas and easy access loading doors.

As you'd expect from Mazda, total commitment to innovation and constant product improvement delivers you some of the best value on the market, whatever the job is.
