Beneath its sleek curves, Mazda CX-9 has sporty performance and handling you're going to love – oh yes, and it provides a luxurious ride for seven people too! It offers quality and style that's distinctive, as well as safety that's comprehensive. And does so in a way that could only be described as Zoom-Zoom.
Style shines through. From the lustrous headlamps to the tail-lights, every aspect of the CX-9 sports flowing, dynamic style.

All in the details. Body-coloured power mirrors match the aerodynamic body shape. Trapezoid-shaped dual chrome exhausts an eye-catching touch.

Drive a statement. Mazda CX-9 has a striking presence that’s impossible to ignore. It is simultaneously smooth, yet aggressive. A perfect fusion of style and substance. Although it comfortably seats seven people, it appears compact, thanks to a streamlined exterior featuring chrome accents and elegantly tapered windows.

These distinctive lines flow rearward from the contoured 5-point grille to the steeply angled windshield that brings the driver right into the action. Enhancing this sleek design are bold 20-inch alloy wheels, lustrous front and rear combination lamps and fog lamp lenses with a jewel-like sparkle.

This impressive quality and refinement is bound to draw attention; Mazda CX-9 is not just an SUV; it’s a moving statement.
Powerful harmony. The perfectly matched V6 engine and 6-speed Activematic transmission combine for responsive power, smooth performance and precise control. It can handle everything. It may seat seven, but Mazda CX-9 moves with sports car agility. Driving these keen dynamics is an advanced 3.7 litre V6 engine. It gives you 204kW of refined power and 367Nm of torque, intelligently applied via a smooth 6-speed Activematic transmission.

Your enjoyment is enhanced by CX-9’s supple fully independent suspension, whose responsiveness makes you feel you’re driving a smaller vehicle. Up front, MacPherson struts promote ideal tyre-to-road contact, while at the rear a sophisticated multi-link system ensures maximum grip and secure handling. At both ends, substantial stabiliser bars help deliver a flat cornering stance. The CX-9 also boasts power-assisted steering with engine-speed-sensing variable assist. Completing the performance is Active Torque Split All-Wheel Drive. Computer controlled, it reacts instantly to changing road and weather conditions, distributing just the right amount of torque between the front and rear wheels for optimum traction and control. In short, Zoom-Zoom is at the heart of the CX-9.
SEVEN SEAT COMFORT. FIVE STAR LUXURY.

CX-9 doesn’t just carry seven people, it spoils them with convenience, choice and enviable luxury. The elegant interior indulges you with superior materials and truly impressive attention to detail. From the smooth, leather-wrapped multi-function steering wheel that tilts and telescopes to give you the perfect driving position, to three-zone automatic climate control that allows individual settings for both front and rear areas. Centre stage is a 4.3-inch high-resolution colour LCD linked to the rear-view camera, which also displays your current CD, AM/FM tuner and audio settings. Superbly supportive seats are finished in sumptuous black leather* trim with the front cabin offering power adjustable and heated front seats. And with a power-sliding glass sunroof, the CX-9 is a five star journey from start to finish.

*Leather interior includes some Maztex material on selected high-impact surfaces.
Settle in and enjoy the show.

The sleek exterior of the CX-9 is an invitation to enter a world that embodies the best of form and function. Premium materials and expert tailoring create a special atmosphere, enhanced by crystal-clear sports instrumentation. The leather-wrapped steering wheel houses switches for the cruise control and audio system as well as the trip-related information display. The perfect driving soundtrack comes via an MP3-compatible 6-disc in-dash CD player and a superb 277 watt, ten speaker BOSE® audio system.

CX-9 also indulges you with 3 position memory for the driver’s seat and external mirrors, making your comfort both automatic and effortless. Power windows, rain-sensing wipers and automatic on/off headlamps are also part of the standard fare.

Great viewing.

CX-9 features a 4.3 inch LCD showing audio functions and rear-view images.

In tune with you.

An auxiliary input connects portable MP3 players to the 277 watt, ten speaker BOSE® audio system.
You get a lot of living room.

The CX-9 can accommodate everyone without any compromises. Seven full-sized seats and ample legroom provide generous space, yet there’s still plenty of space for cargo. Third row access is incredibly simple. One hand is all it takes to operate the rear access latch that tilts and slides the 2nd-row seat forward. It gives you easy access to 3rd-row seating and nearly 230cm of foot space. A simple pull of the 3rd-row release strap lifts the 50/50 split rear seatback down to reveal a surprising 928 litres of cargo space. Folding the 2nd-row 60/40 split seatback gives you a massive 1,887 litres of room, and all without the hassle of having to remove any headrests. Even with seven people on board, there’s an impressive 267 litres of cargo space available.

This level of space, comfort and accessibility means everyone enjoys plenty of room to live.

A place for everything.

For ease of use the centre armrest console’s lid opens sideways in two parts, revealing a large storage compartment. A lockable, illuminated glove box adds convenience. Rear cupholders enhance passenger comfort.

Grab a seat.

Pull the latch and you’ve got easy access for comfortable 3rd-row seating.
Mazda CX-9 surrounds you with an array of safety features. The Mazda Advanced Impact Distribution and Absorption System (MADAS) boosts the protection of the extremely rigid passenger cell, by absorbing and redirecting impact energy away from it. Also integrated are side-impact door beams and a collapsible brake pedal that minimizes the risk of ankle or leg injuries in an accident. Front and side-impact airbags, plus full-length curtain airbags covering all three rows are standard. There are front seat-belt pretensioners and load-limiters plus front seat active head restraints. Dynamic Stability Control (DSC) is on hand to help prevent skidding, or loss of control on slippery roads. Further vehicle control systems such as ABS with Electronic Brake-force Distribution and Emergency Brake Assist are standard, as is Roll Stability Control. This advanced system detects the possibility of a rollover and responds automatically to stabilize the vehicle. Remote central locking, plus an engine immobiliser ensure your CX-9 is safe from intruders. There’s even a rear-view camera to make reversing safer. In short, it’s been engineered to provide you and your passengers with great protection. You and your car are taken care of with a Mazda Genuine Factory Warranty and Mazda On Call Roadside Assistance for a 3 year, unlimited kilometre period. And best of all, mazda care gives you Genuine Scheduled Servicing for 3 years, or 100,000km (whichever occurs first) at no extra cost. This gives you access to a comprehensive service program where factory-trained technicians equipped with one of the world’s most advanced computer diagnostic systems ensure your CX-9 continues to perform in A1 condition. Plus you’ll be protecting your investment in a vehicle that already has outstanding resale value. For more information on mazda care, see the owner documents or go to mazda.co.nz.
